

MaxiFlow Quick Change Water Filters

MaxiFlow systems have been designed for high flow rate residential and commercial applications – including drinking water systems, coolers, coffee and ice makers.

The systems feature quick change sanitary cartridge technology ensuring easy cartridge change-out and eliminating handling of contaminated cartridges.

Models are available to reduce sediment, chlorine, taste/odour, scale formation and also remove parasitic cysts such as giardia and cryptosporidium.

A range of sizes and filter head assemblies are available for all applications. The Combo cartridge fits MaxiFlow and Everpure QL1 heads. Multi cartridge systems are available for larger equipment and whole of kitchen applications.

Features & Benefits

- FIBRON filter media - Extra high gram life and dirt holding. Excellent reduction of organic matter and chlorine.
- Low pressure drop. No fines released in 'first flush'
- Manufactured in USA; dependable quality and performance validation
- WaterMark and NSF certification - Assurance of quality product
- High flow rates and capacity. Range of sizes and media to suit all applications

Application

- Residential
- Commercial
- Food Service
- Coffee
- Water Coolers
- Ice Machines
- Dishwashers

Specifications and operating conditions

- Materials of construction: Polypropylene sump and head
- Inlet/Outlet ports: 3/8" thread and quick connect - options available
- Temperature range: 4-40 deg C
- Pressure: 862 kPa maximum
- Flow rate: < 12 lpm
- Protect housing from direct sunlight and freezing
- Use pressure limiter to ensure max pressure is not exceeded
